I. Definitions

Advertising: the product that will be promoted. The product can be a mobile app or a web page.

Offer: refers to the ad unit that needs to be put under an ad campaign. For example, when promoting an app, different ad units can be created to run A/B tests based on criteria like region, price, or creative. The same ad campaign can contain multiple ad units. Ad units can have custom names, we recommend naming them using this structure: short company name_ short product name_region_platform_mtg.

Tracking links: track the clicks or impressions for ads served by Mintegral and are used for conversion attribution callbacks. If you use 3rd party tracking, please choose Mintegral tracking links on the 3rd party platform. If you use API/S2S integration, please contact your Account Manager for assistance.

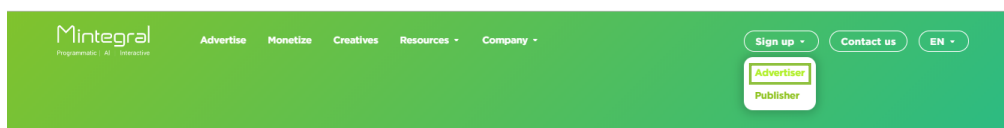

UUID: an internal Mintegral tag used for querying data for ad units, which is automatically generated after an ad unit is successfully created.

Note: An End-card template will be generated automatically, which includes the APP name, APP Description, CTA Button, Short Title.

Example:

The screenshot shows an advertisement for the app 'Jewelry Maker!'. At the top, there's a banner with three panels: the first shows the app's logo 'JEWELRY MAKER' with a starburst effect; the second shows a red gem being worked on with a tool; the third shows a smartphone displaying the app's interface. Below the banner is a large blue diamond icon. The app title 'Jewelry Maker!' is centered below the icon, followed by a five-star rating and the text '(3,281)'. A large green 'INSTALL' button is positioned below the rating. At the bottom, there's a section titled 'You may also like' with five app icons: 'LINE: 鋼...', '養豬場MIX', 'TOFU GIRL', '成語填填...', and '標槍'. The 'Mintegral' logo is visible in the bottom right corner of the ad area.

Choose one of three:

- b) In the regional filter at the top of the list, you can view the corresponding core creative details based on location. The processes are the same as those for creating an offer, and users can update the text assets on this page.

Note: During the promotion of the offer, if the corresponding location does not contain the required creatives, our system will automatically take the relevant content from the App Store or the Campaign. This means that any special settings here will not affect the offer that the advertiser has already created.

4) Set tracking links

After you have successfully created an offer, you will need to configure your tracking links. Please note that the click URL for CPI offers must be set up correctly. You can only activate the offer once the testing phase has been completed successfully.

How to set tracking links:

step 1

The screenshot shows the Mintegral 'Offer List' page. At the top, there's a navigation bar with 'Overview', 'User Acquisition', 'Reports', and 'Account'. Below this, there's a filter section with dropdowns for Offer Name, UUID, Related Campaign, Status, Bid Type, and Platform, along with a Location dropdown and 'Create Offer' and 'Search Offer' buttons. The main part of the page is a table with columns: Offer Name, Created, Promote, Status, Spend, CVR, CPI, and Action. The table lists several offers, all with a status of 'Stopped'. A dropdown menu is open for the 'Action' column of the first offer, showing options: 'Edit Offer', 'Quick Add Offer', 'Check Report', 'Set Tracking Link', and 'Edit Offer Budget'. The 'Set Tracking Link' option is highlighted. To the right of the table, there are green labels 'step 2' and 'step 3' pointing to the 'Edit Offer' and 'Set Tracking Link' options respectively.

- For CPM/CPC offers, tracking links are not necessary. You can run the offer once you have finished creating it. (Note: It is recommended to fill in tracking links to track conversions and user events for better optimization.)
- You must save the Click URL first and then you can successfully get the links by clicking the "Get Test Links" button. If you use 3rd-party tracking, please click "Save" and enter the automated testing process.
- Please check the testing status after 2-4 hours. If the test failed, please correct the error and test again manually. You may choose between automated testing and manual testing. Once you've passed either of these tests, you can start to run your campaign offers. If you choose manual testing, please follow the instructions below to fill out your testing device ID and finish downloading the app to pass the test.

Tracking URL Testing

❶ Before running an offer, you need a test to see if you've correctly implemented the tracking link. It just takes a few steps.

Step 1. Set up the conversion tracking URL

You must call the postback URL after the successful completion of the offer to track a conversion. [Click here](#) to find how to set up the postback URL.

Step 2. Use the test link to install your app

7. Target setting

- 1) You can set target apps (blacklist and whitelist) by going to “Account – Target Setting”. There, you will be able to select the apps you want your offers to include or exclude. Changing the settings here will be reflected across all the offers in your account.

The screenshot shows the 'Target Setting' page for user 'test1000'. The page has a green header with the Mintegral logo and navigation links: Overview, User Acquisition, Reports, Account, and Help Center. The user's name 'test1000' and links for 'Logout' and 'English' are in the top right. The main content area is titled 'Target Setting' and includes a breadcrumb 'Account > Target Setting'. Below this, the user's name 'test1000' is displayed. A 'Target App' label is highlighted with a green box. The 'For Android Offer' section has two radio buttons: 'All App' and 'Specific App', with 'Specific App' selected. Below this, there are 'Include' and 'Exclude' radio buttons, with 'Exclude' selected and highlighted by a green box. A list of app categories follows: Casual (checked), Arcade, Others, Cards, Action, Role Playing, Puzzle, Music Games, Adventure, Sports, Casino, and Simulation. An 'Update All' button with a refresh icon is at the bottom of this list. The 'For iOS Offer' section has 'All App' and 'Specific App' radio buttons, with 'All App' selected. It also has an 'Update All' button with a refresh icon. A green 'Submit' button is located at the bottom right of the form. The footer contains the text 'Copyright 2020 Mintegral All rights reserved.'

- 2) Set the target apps in your offer, then select the apps you want to include or exclude.

- For the “Target App” feature, the maximum number of apps you can whitelist or blacklist within a single setting is 2,000
- The “Target App” settings from the “Offer” dimension will take precedence over those in the “Account” dimension. This means that if you have any “Target App” settings in the “Account” dimension, they will be overridden by the settings you chose in the “Offer” dimension.

8. Reports

1) Summary report

Click the "Overview" button from the main menu bar, and you can view data reports for today, the last 3 days, last 7 days or last 15 days:

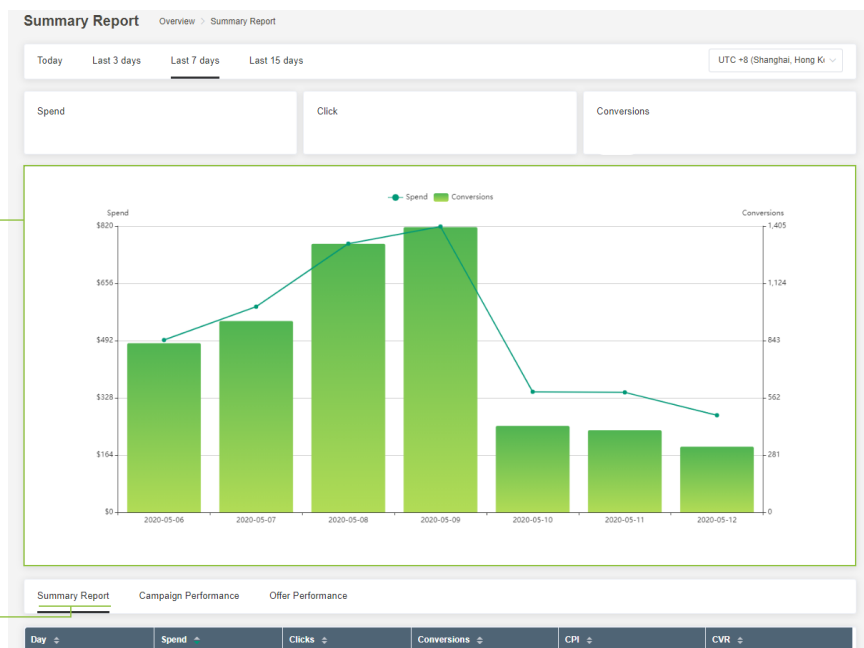

Description:

- In the "Campaign performance" and "Offer performance" reports, only the top 20 items will be displayed.
- Click a certain campaign name or offer name to visit a sub-page where you can view detailed data of the respective campaign or offer.

Graphic of spending data from the chosen time period will show up here.

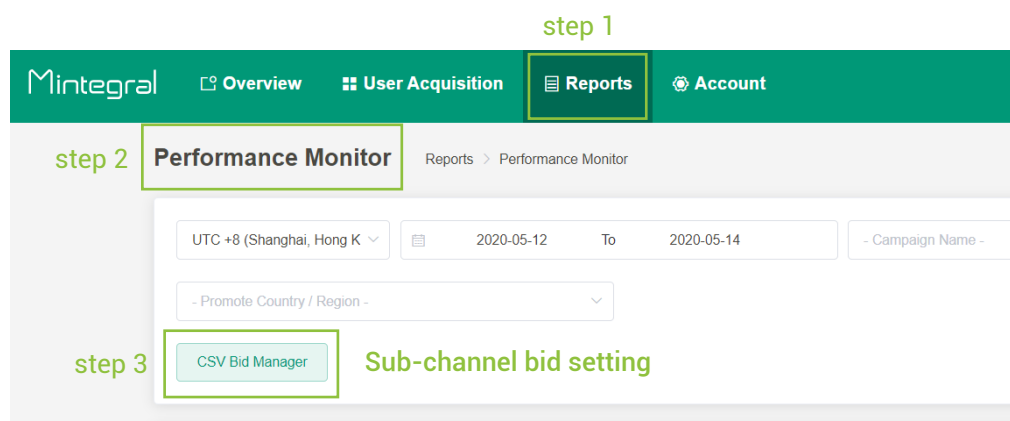

You can switch the table to see the corresponding data performance.

2) Detailed data reports

Performance monitor :

You can view multi-dimensional data in the "Performance monitor" report, and use the "CSV Bid Manager" function to set bids for the "mtgid" dimension of sub-channels.

Sub-channel bid settings :

- Step 1: Select the corresponding offer to begin downloading the file.
The CSV file before editing looks as follows:

The screenshot shows the 'CSV Bid Manager' dialog box. It has a green header with the title 'CSV Bid Manager' and a close button. Below the header, there are two buttons: 'Download CSV' (highlighted with a green box) and 'Upload CSV'. Below these buttons, there is a dropdown menu labeled 'Offer' with the text '- Offer Name -'. At the bottom of the dialog, there are two buttons: 'Cancel' and 'Download'.

Offer Name	Geo	APP	Bid Rate	Default
	IN	mtg113073	default	0.5
	IN	mtg121558	default	0.5
	IN	mtg180862	default	0.5

- Step 2: For the sub-channels where the bid needs to be modified, replace the "default" value in the "Bid Rate" column with the new bid value and delete the contents of the "Default" column. The edited content should look as follows:

Offer Name	Geo	APP	Bid Rate	Default
	IN	mtg1130739	1.5	
	IN	mtg1215587	2	
	IN	mtg1808626	1.8	

- Step 3: Delete the sub-channels that do not need to be edited, only keep the modified content, save the CSV file and upload it again:
